

AutonoMe

Job Role: Video Production and Editor (video)

Full time, 37.5 hours per week

Location: Head office in Weston-Super-Mare, North Somerset, BS22 7SB

Who are we?

AutonoMe is an ambitious South West based startup using a technology platform to make huge strides to improve the lives of vulnerable Children and Adults across the UK. At AutonoMe you'll find a team of people who are deeply knowledgeable and passionate about our destination, working with individual autonomy and a shared purpose.

Our users love how AutonoMe helps them live more independently by delivering video content that guides them through everyday tasks to their mobile device, wherever and whenever they need support. Our clients use our data dashboard to help understand and celebrate user progress and make accurate future predictions.

Job Description:

We are looking for a Video Production and Editor (video) who has a range of skills for this 'hands-on' role. A central part of the job will involve planning, filming, editing and publishing content – from basic instructional videos for individuals and groups to promotional case studies and compelling user journeys. Working closely with the executive team, development team, key partners and users you will be responsible for creating video content that meets a variety of needs.

But there is a lot more to the role, for example working closely with the Product Development team to ensure video player styles, graphics, languages and more reflects the strategic aims of the company.

Responsibilities

- Manage the video library keeping legacy video content updated to ensure our video library meets industry standards.
- Working with the CEO and operational team to plan, research and agree on short, medium and long term video content requirements.
- Working closely with the operational team to differentiate written materials into scripts suitable for our users.
- Working with and interviewing vulnerable people and their key partners
- Confident in Final Cut Pro X; colour correction tools and balancing audio levels.
- Basic knowledge/ability of Photoshop and Illustrator
- Backing up and archiving video content, maintaining and organising equipment.
- Have confidence in using varied camera equipment to produce content. We currently use Canon C200 video camera, lavavel and boom mics.
- Understand mobile video content delivery methods to ensure our users receive an efficient and professional service.
- Must be willing to travel to various filming locations and film (with actors), if necessary, at unsociable hours throughout the year.
- As you will be working in a small company you must be flexible and able to turn your hand to almost any task.

About you

Our ideal candidate will:

- Share our passion for improving the lives of vulnerable Children and Adults
- Be able to work independently and communicating progress
- Demonstrate experience of developing quality educational video content
- Enjoy working with a great deal of autonomy

What we offer

The opportunity for your video content to be used on a daily basis to support some of the most vulnerable people in our society and use your skills to make a real social impact!

- Flexibility around hours and remote working
- Significant input our video content strategy
- Support to ensure you grow as the company grows
- The opportunity to be part of a dynamic, enthusiastic and adventurous team scaling an ambitious Business.
- The opportunity to create video content that will help thousands of vulnerable people across the UK to live independently.

Applications

Applicants will require the right to work in the UK and subject to a DBS check. Please send your CV and examples of previous projects and references to careers@autono.me.uk

AutonoMe is an equal opportunity employer and values diversity in our company. We do not discriminate on the basis of race, religion, colour, national origin, gender, sexual orientation, age, marital status, or disability status.
